MEDIA ADVISORY: Disaster Exercise To Take Place June 22

BRAA to host full-scale disaster exercise as part of FAA requirements

On Saturday, June 22, Barkley Regional Airport will be hosting its triennial, full-scale disaster exercise. The FAA requires Barkley to produce a full-scale disaster preparedness exercise every three years.

Please note that while there will be multiple emergency vehicles en route to and at Barkley Regional Airport, there will be no actual emergency. The purpose of the exercise is to test the readiness of not only the airport for a major air disaster, but all area emergency response teams, as well.

If you have any questions or would like to attend the exercises, please contact Parker Griffith at the information below.
